The quality and function of Mensa Heating has now become portable

Omnis
For the garden, balcony or camping.

Omnis provides eco-friendly outdoor heat exactly where you want it. Omnis is designed to fit under your existing garden table to make those long cosy evenings even longer. Soothing heat from harmless infrared light is used to increase vibrations in our cells which then heats up the body. Because Omnis’ infrared heat source is placed to optimize the body’s natural heating system, the end result is a pleasant soothing heat throughout.

Extend your season using MENSA HEATING’s innovative heat technology. Soak up the relaxing and comfortable warmth as it rises up through the body leaving you to enjoy the pleasure of the outdoors late into the season. Omnis slots easily under a table, so it’s quick to take out or move back in after a pleasant evening on the patio, balcony or even out camping. Simply plug the product into an power outlet to enjoy immediate soothing warmth.

Omnis

STAY

Omnis

Is our most compact and portable heater. Whether you are out camping or just enjoying an impromptu evening on the deck, Omnis offers the most environmentally friendly outdoor heating solution. Our unique technology stimulates the body's natural heating system for thorough, soothing heat wherever and whenever you want it.

Omnis is our compact, portable new terrace heater that fits comfortably under existing garden furniture for instant additional heat. Omnis's innovative heating technology not only ensures maximum comfort long into the season - its functional, efficient design makes life easier, cuts expenses, and minimizes harmful emissions.

Large, ugly, expensive, polluting gas patio-heaters are now a thing of the past. No more checking to see if there's gas in the canister, no need to drive around trying to find a service station to refill. With Omnis, when you get a sudden urge to enjoy the outdoor, you simply plug it in, sit back and enjoy.

Imus

Innovative heat technology ensures low CO2-emissions. “Imus” is Latin for ‘Underneath’ and was built specifically to offer you warmth and comfort wherever you may need it. Imus is the most environmentally friendly outdoor heater on the market and generates heat using infrared light waves which are absorbed by the body for a deep, lasting warmth. Imus even comes with a simple on/off switch so there is absolutely no expertise needed and no danger involved. Just hassle-free outdoor heat at your fingertips.

Vireoo - Professional for cafes and restaurants

Vireoo - Professional

Vireoo – Professional is our eco-friendly outdoor heater developed and designed specifically for cafes and restaurants. Because our heat element is integrated into the base of the table, soothing heat radiates into the toes and up through the rest of the body for longer and more comfortable stays.

Eco-friendly warmth creates longer outdoor seasons

Vireoo is Latin for 'I am green', which is no coincidence as our product truly is the most eco-friendly outdoor heater on the market.

Not only does Vireoo produce a fraction of the CO2 traditional heaters emit but, with its built-in motion sensors, the heater only engages when someone's actually occupying the table, so you will not needlessly pour money into thin air. Furthermore, Vireoo's table integrated design means you can get rid of your old cumbersome heaters and use the extra space for more happy customers.

Lightning fast returns on investment

Vireoo's technology reduces operating costs so dramatically you will feel it immediately. By switching to Vireoo from a traditional gas heater you'll reduce your running costs several times over, (from in excess of Euro 2,07 per hour to just Euro 0,08).

Vireoo - Professional Specifications

Vireoo Professional Cafe table with integrated electrical powered infrared heat. Intended to extend your outdoor season from spring to fall. Vireoo Professional is fitted with sensors, an On/Off switch, Aluminium feet and high temperature plastic tube (heat protective). Available in chrome, black, white and all RAL colors.

Heat specification

Vireoo is designed to heat 2 persons sitting on each side of the table, using a 400 watt short wave infrared heating bulb. The bulb is placed inside the leg of Vireoo, in a bipolar lamp house.

Motion Sensor

Vireoo Professional is fitted with motion sensors, which turns the product on/off when people are sitting/leaving the table. The Motion sensor runs on a 3-minute cycle.

-

Vireoo - Private

Unique space saving design

Large gas heaters take up lots of space and may leave thermal cracks in overheated windows. Vireoo integrates our innovative heat technology into a sleek, stylish café table giving you both a more comfortable experience and more space in which to extend your outdoor enjoyment.

Portable and convenient

Polluting, ugly, expensive and dangerous gas patio-heaters are now a thing of the past. Vireoo requires no preparations. Small, lightweight and portable - Vireoo offers you heat wherever you want it. Simply plug it in and enjoy instant warmth.

Vireoo - Private Specifications

Vireoo Private Cafe table with integrated electrical powered infrared heat. Intended to extend your outdoor season from spring to fall. Vireoo Private is fitted with an On/Off switch, Aluminium feet and high temperature plastic tube (heat protective). Available in chrome, black, white and all RAL colors.

Designed to work with the body

Vireoo's heat source was specially designed to fit below the table, allowing the soothing warmth to spread up through the body. In order to maintain warmth for our vital organs our bodies automatically react to cold by reducing the flow of blood to our extremities, which is why our arms and legs are usually the first places to feel the chill. By making sure that your legs are nice and warm, Vireoo allows your body to circulate this warmth evenly and naturally.

- 1 On/Off switch**
Placed on the side of the table leg

Statio

Unique design and space saving

The new outdoor heater Statio is built as a standing bar table, that can be bolted to the pavement/floor for a stationary position. Statio creates a nice relax station for a short outdoor break enjoying a cup of coffee or a drink. With Statio you have an outdoor heater that radiates a pleasant heat and at the same time a beautiful standing bar table.

Plug and Play
Statio requires no preparation. Simply connect the product to a power outlet and you have instant heat.

Thoughtful
Statio creates a comfortable “rest stop”, outside the restaurant. Statio can be free standing or bolted directly into the tile / subfloor.

Weight 6,5 kg without tabletop	Power consumption 700 watt	Surface finish Chrome (grill) Colors: Powder coated

Statio

This season

Mensa Heating introduces Statio, a standing table specially designed for restaurants and cafes' who wishes an attractive place for a short outdoor stop.

The Name

"Statio" is Latin and means, 'Standing'. It is a standing bar table with build in heating which lets you comfortably enjoy a quick cup of coffee or a drink.

Safety

Statio is as every other Mensa Heating product safe to touch. Statio is in other words a save heat source.

Season Changes

Enjoy the season changing. The outdoor season can be extended with several months with the outdoor heater Statio. With an innovative heating technology it heats the body from below using infrared light waves securing the entire body a pleasant heat, which makes it a pleasure to be outside.

Plug and play

No preparations, just instant heat. Statio is easy to use, just plug it in and you have instant heat, compared to traditional gas heaters which has a long heat up time.

From the time you turn on Statio you will instantly feel the heat, because Statio do not heat up the air, but only heats up the objects that the infrared light waves hits. This means that Statio is very economical to use, and also means that you do not need a heat master for your outdoor heaters. Just plug it in and you are ready to enjoy the pleasant heat.

That calls for a 

Accessories

Professional

Serial cable

 Serial cable for Vireoo - Professional allows you to serial connect up to 5 products on the same power outlet. Serial Cables can be fitted in different lengths.

Power Cable

 Power cable for Vireoo - Professional. The cable is available in different lengths, ensuring that the distance from the power outlet to the product is never a problem.

Cable protectors

 Solid rubber cable protectors easily covers wires laying on the ground, ensuring that customers don't accidently trip in wires.

Table top tilt

A tilt top bracket can be a solution for Cafes and restaurants that wants to minimize the space consumption occupied by tables when they are put away. The tilt top bracket can be fitted on Vireoo - Professional, and lets you tilt the tabletop to vertical position.

Private
