SAVINGS AS NEVER SEEN BEFORE
The running costs for 1 gas heater is the same as 25 MENSA HEATING - Vireoo

Imus

Is our most compact and portable heater. Whether you are out camping or just enjoying an impromptu evening on the deck, Imus offers the most environmentally friendly outdoor heating solution. Our unique technology stimulates the body's natural heating system for thorough, soothing heat wherever and whenever you want it. Imus is our compact, portable new terrace heater that fits comfortably under existing garden furniture for instant additional heat. Imus's innovative heating technology not only ensures maximum comfort long into the season - its functional, efficient design makes life easier, cuts expenses, and minimizes harmful emissions.

Large, ugly, expensive, polluting gas patio-heaters are now a thing of the past. No more checking to see if there's gas in the canister, no need to drive around trying to find a service station to refill. With Imus, when you get a sudden urge to enjoy the outdoor, you simply plug it in, sit back and enjoy.

SAFE TOUCH

Designed in Denmark

Imus

Innovative heat technology ensures low CO2-emissions. “Imus” is Latin for ‘Underneath’ and was built specifically to offer you warmth and comfort wherever you may need it. Imus is the most environmentally friendly outdoor heater on the market and generates heat using infrared light waves which are absorbed by the body for a deep, lasting warmth. Imus even comes with a simple on/off switch so there is absolutely no expertise needed and no danger involved. Just hassle-free outdoor heat at your fingertips.

Vireoo - Professional for cafes and restaurants

Vireoo - Professional

Vireoo – Professional is our eco-friendly outdoor heater developed and designed specifically for cafes and restaurants. Because our heat element is integrated into the base of the table, soothing heat radiates into the toes and up through the rest of the body for longer and more comfortable stays.

Eco-friendly warmth creates longer outdoor seasons

Vireoo is Latin for 'I am green', which is no coincidence as our product truly is the most eco-friendly outdoor heater on the market. Not only does Vireoo produce a fraction of the CO2 traditional heaters emit but, with its built-in motion sensors, the heater only engages when someone's actually occupying the table, so you will not needlessly pour money into thin air. Furthermore, Vireoo's table integrated design means you can get rid of your old cumbersome heaters and use the extra space for more happy customers.

Lightning fast returns on investment

Vireoo's technology reduces operating costs so dramatically you will feel it immediately. By switching to Vireoo from a traditional gas heater you'll reduce your running costs several times over, (from in excess of Euro 2,07 per hour to just Euro 0,08).

Vireoo - Professional Specifications

Vireoo Professional Cafe table with integrated electrical powered infrared heat. Intended to extend your outdoor season from spring to fall. Vireoo Professional is fixed with sensors, an On/Off switch, Aluminium feet and high temperature plastic tube (heat protective). Available in black, white and all RAL colors.

Heat specification

Vireoo is designed to heat 2 persons sitting on each side of the table, using a 0,55 kW shortwave infrared heating bulb. The bulb is placed inside the leg of Vireoo, in a bipolar lamp house.

Motion Sensor

Vireoo Professional is fitted with motion sensors, which turns the product on/off when people are sitting/leaving the table. The Motion sensor runs on a 3-minute cycle.

1 On/Off switch

Placed on the side of the table leg

2 Heat protective grill

The grill in front of the heating lamp, is designed with SAFE TOUCH

3 Adjustable feet

Fitted with adjustable feet, which levels out the table when placed on uneven ground, and holes in the feet which can be used to prevent theft.

4 Ventilation holes

In the top of Vireoo are ventilation holes which keeps Vireoo cooled when in use

5 Serial Connection

Serial connection of up to 4 tables, on a single power outlet, by using serial connector plugs in the bottom of Vireoo

ON/OFF

Dimensions: 55 x 55 x 71 cm
Weight: 7 kg
Color: Black, White, Gray, RAL

Power: 0,55 kW
Volt: 100V / 110V / 230V
Bulb lifetime: 5-7.000 Hours

Vireoo - Private

Portable and convenient
Polluting, ugly, expensive
and dangerous gas
patio-heaters are now a
thing of the past. Vireoo
requires no preparations.
Small, lightweight and
portable - Vireoo offers
you heat wherever you
want it. Simply plug it in
and enjoy instant warmth.

Unique space saving design

Large gas heaters take up
lots of space and may leave
thermal cracks in
overheated windows. Vireoo
integrates our innovative
heat technology into a
sleek, stylish café table
giving you both a more
comfortable experience and
more space in which to
extend your outdoor
enjoyment.

Vireoo - Private Specifications

Vireoo Private Cafe table with integrated electrical powered infrared heat. Intended to extend your outdoor season from spring to fall. Vireoo Private is fitted with an On/Off switch, Aluminium feet and high temperature plastic tube (heat protective). Available in black, white and all RAL colors.

Designed to work with the body

Vireoo's heat source was specially designed to fit below the table, allowing the soothing warmth to spread up through the body. In order to maintain warmth for our vital organs our bodies automatically react to cold by reducing the flow of blood to our extremities, which is why our arms and legs are usually the first places to feel the chill. By making sure that your legs are nice and warm, Vireoo allows your body to circulate this warmth evenly and naturally.

Plug & Play

High Quality

CLASSIC POSITIONING 'FROM ABOVE'
The "classic" positioning of outdoor heaters, emits the heat from above. This is not optimal for the human body, as the heat in the body goes up. Also due to safety, the heaters are place far away, which leads to a huge power consumption.

THE OPTIMAL POSITIONING 'FROM BELOW'
Our body absorbs the heat best, when it comes from below. The human body transports the heat from our legs, up to the vital organs, this secures an optimal heating experience. The power consumption is thereby lowered dramatically, as we are closer to the users.

WE USE ONLY THE BEST

COMPARISON OF INFRARED HEATING TYPES

Heating type	Wavelength	Heating element	Max. Efficiency	Efficiency
Gasheater	Medium-wave	Champer	60 s	30%
Ceramic-Infrared heater	Medium-wave	Ceramic	60 s	45%
Carbon-Infrared heater	Far-wave	Light bulb	60 s	45%
Halogen-Infrared heater	Short-wave	Light bulb	1 s	92%

MENSA HEATING only use Short-wave lamps, to secure the highest performans possible

Statio

Unique design and space saving
The new outdoor heater Statio is built as a standing bar table, that can be bolted to the pavement/floor for a stationary position. Statio creates a nice relax station for a short outdoor break enjoying a cup of coffee or a drink. With Statio you have an outdoor heater that radiates a pleasant heat and at the same time a beautiful standing bar table.

Plug and Play
Statio requires no preparation. Simply connect the product to a power outlet and you have instant heat.

Thoughtful
Statio creates a comfortable "rest stop", outside the restaurant. Statio can be free standing or bolted directly into the tile / subfloor.

Dimensions: 55 x 55 x 110 cm
Weight: 8 kg
Color: Black, White, Gray, RAL

Power: 0,7 kW
Volt: 100V / 110V / 230V
Bulb lifetime: 5-7.000 Hours

Statio

Introducing

Mensa Heating introduces Statio, a standing table specially designed for restaurants and cafes' who wishes an attractive place for a short outdoor stop.

The Name

"Statio" is Latin and means, 'Standing'. It is a standing bar table with build in heating which lets you comfortably enjoy a quick cup of coffee or a drink.

Safety

Statio is as every other Mensa Heating product SAFE TOUCH. Statio is in other words a safe heat source.

Season Changes

Enjoy the season changing. The outdoor season can be extended with several months with the outdoor heater Statio. With an innovative heating technology it heats the body from below using infrared light waves securing the entire body a pleasant heat, which makes it a pleasure to be outside.

Plug and play

No preparations, just instant heat. Statio is easy to use, just plug it in and you have instant heat, compared to traditional gas heaters which has a long heat up time.

From the time you turn on Statio you will instantly feel the heat, because Statio do not heat up the air, but only heats up the objects that the infrared light waves hits. This means that Statio is very economical to use, and also means that you do not need a heat master for your outdoor heaters. Just plug it in and you are ready to enjoy the pleasant heat.

That calls for a Carlsberg

Accessories

Power Cable

Power cable for Vireoo Professional. The cable is available in different lengths, ensuring that the distance from the power outlet to the product is never a problem.

Serial cable

Serial cable for Vireoo - Professional allows you to serial connect up to 5 products on the same power outlet. Serial Cables can be fitted in different lengths.

Cable protectors

Solid rubber cable protectors easily covers wires laying on the ground, ensuring that customers don't accidentally trip in wires.

Danish Design & Engineer work

Our timeless design is created by Mikael Mammen. Throughout the design and engineering behind the products, it is ensured that our products have a clean line which makes the products blend perfectly in with existing furniture.
